

Microspray Plus - Refills

Microspray keeps rooms fresh and odour free by automatically releasing sprays of aerosol fragrance into an environment. The basic Microspray can be set to release spray every 7, 15 or 30 mins, making it perfect for locations that require 24 hour protection.

- Effective odour control
- Fully programmable spray cycle time
- Massive choice of sprays
- Easy can replacement
- LCD display
- Four year warranty

Available in standard or Aromatherapy versions, the sprays are designed to stay airborne longer and outlast any of the competition. The number of fragrances available for the Microspray range is one of its biggest advantages. With 15 evocative fragrances to choose from, you are spoilt for choice.
